• LEARN • ACHIEVE • SUCCEED

Dear Students

Have a great winter vacation!! Despite the cold winter time is fun and comes with its share of excitement. We would like to remind you that this time is also an opportunity to explore your interests and build your skills and talents. Your aim should be to “Make Yourself” a sensible, creative and sincere person who is always ready to make efforts for the betterment of society.

A word to parents

Parenthood is a beautiful blessing. With this blessing, also comes responsibility. With your support, we teach your child the importance of education and learning. However, your role in your child’s future is the most important one. Accept their imperfections and allow them to learn, develop and transform. As parents, it is important to invest your time with them now and never forget that you are doing an excellent job as a parent.

- Encourage your child’s creative skills and interests in addition to his/her education at school.**
- Children may not listen to what you say but will eventually always try to imitate your behaviour.**
- Help your child cultivate a healthy self-image by implanting a positive mind set in him/her that he/she is lovable, capable and unique.**
- Tell your child about your childhood days and the way people used to live in those days. Also tell him/her about your grandparents and parents.**

**Regards
Principal**

A soldier sacrifices his life bravely for his motherland. It is he who has to live miles away from his family. While defending his country he goes into the jaws the death. His life is not a bed of roses; it is a bed of thorns. For him, defence of country is most important in his duties and responsibilities. We are safe only because of soldiers.
